

## Call Australia Mobile Service OTAC Compatibe Handset List

The list below denotes whether or not OTAC (over the air configuration) can be used to configure Call Australia WAP and/or MMS on your handset. The letter 'N' in this field denotoes that the configuration must be manually set up. Separate documentation will provide generic manual configuration instructions.

Type	BRAND	MODEL	Browser type	Capabilities for OTAC and MMS and Comments		
				OTAC	MMS	Comments
